I have been listening to KLOVE for several years on-line and a couple years ago they came to El Paso. They have made such a powerful impact on me and my family. I do not listen to any other station. I love the fact they can talk about our wonderful Lord and Savior and play songs that reflect my thoughts and beliefs. Our city is in desperate need of this kind of radio station and we are growing continually. It would really hurt our local area to have them taken on the air. Please don't take them away.
